

## 1.7 ROOF TILE ACCESSORIES

### RIDGE LINE "LARGE BARREL TILE" STYLE:

Coppo SanMarco, Coppo Veneto 45, Coppo Veneto 50

### RIDGE LINE:

C10, TAC, Portoghese, Marsigliese, Cedar

**1 RIDGE END FOR LARGE BARREL TILE**  
It closes and refines the ridge line.

**2 LARGE BARREL TILE**  
Ridge tile, suitable for level or sloping ridge lines.

**3 DOUBLE RIDGE CROWN**  
Changes overlap direction on ridge, making it possible to use the same end to finish all ridge lines.

**4 RIDGE**  
Ridge tile, suitable for level or sloping ridge lines.

**5 RIDGE END**  
It aesthetically caps the ridge line and prevents birds from nesting.

**2, 3, 4, WAY CROSS RIDGE FOR LARGE BARREL TILE**  
It connects ridge lines where pitches cross.

**2, 3, 4, WAY CROSS RIDGE FOR RIDGE**  
It connects ridge lines where pitches cross.

**6 UNDER RIDGE TILE**  
Fills empty spaces between tiles under the ridge. Prevents water infiltration, bird nesting, mold and condensation. Dry laid.

**7 VENTILATION TILE**  
Facilitates roof ventilation for temperature control and moisture discharge.

**8 CHIMNEY BASE AND FLUE**  
Tile devised to fit the chimney base. Matches perfectly with the rest of the roof.

**9 DOUBLE WAVE**  
It refines the left side of the roof pitch, making tile cutting unnecessary.

**10 LEFT AND RIGHT**  
They aesthetically finish the roof edge without need for metal flashing.

## Functional accessories

### 1. VENTILATED EAVES SYSTEM

- > Suitable for all the profiles
- > Efficient air flow
- > Easy to lay

### 2. UNDERLAY MEMBRANES

- > DRY TEX. Non-breathable roofing underlay membrane
- > WIND TEX. Air open and vapour-permeable membrane

### 3. INSULATION SYSTEM

- > EPS insulating board with integrated metal batten for tiles fixing and ventilation
- > Available also in EPS+GRAFITE and reflecting membrane

### 4. VENTILATED RIDGE SYSTEM: ALU ROLL 40

- > Ventilation system for horizontal and sloping ridges
- > All aluminium, with pleated strips and butyl adhesive, for enhanced impermeability
- > Ideal for wooden roofs with air space, quick installation, maintenance free

### 5. VENTILATED RIDGE SYSTEM: ALU RIGID

- > Ventilation system for horizontal and sloping ridges
- > Stiff central body with air grates
- > Pleated strips in varnished aluminium and butyl adhesive, for enhanced impermeability
- > Ideal for wooden roofs with air space, quick installation, maintenance free

### 6. TILE CLIPS

- > For fixing tiles and barrel tiles on the support battens

## FIXING CLIP INSTRUCTIONS

a) clip for cover tiles

b) clip for cover tiles with hole

c) clip 455002 for curved interlocking tiles

d) clip 409002 for curved and flat interlocking tiles

e) clip 436A02 for curved and flat interlocking tiles

f) clip 416001 for curved and flat interlocking tiles
