pcs/pallet	180/240
minimum slope	30%

Thanks to its innovative “S” profile, the Coppo SanMarco creates the effect of a traditional Italian tile roof using an interlocking tile. Thanks to the large size of each tile, a Coppo SanMarco roof is quick and easy to install: 12 pieces cover 1 square meter. Its performance is guaranteed by exclusive technical features: horizontal ribs to increase strength, fastening nibs for perfect interlock, wide drain canal to improve rainwater runoff.

Coppo SanMarco is a **CE** marked product

Coppo SanMarco. A technology with strong roots.

TOP

- 1_ Double interlocking grooves.
- 2_ Punched hole for fastening.
- 3_ Drain canal.
- 4_ Barrel tile finish.
- 5_ Innovative “S” shape.

BOTTOM

- 1_ Fastening nibs.
- 2_ Horizontal stiffening ribs.
- 3_ Double interlocking grooves for wind-resistance.

To ensure chromatic homogeneity throughout the entire project, intermix tiles from different pallets.

Coppo SanMarco Reale surface

MEDIEVALE REALE

TICINO REALE

Coppo SanMarco is produced using a select clay mixture. Its micro-porosity, strength and quality guarantee optimum performance in terms of duration and ventilation. Available in a range of colors, Coppo SanMarco allows you to create a roof with a strong personality and charm. Medieval and Ticino colors are available in the exclusive “Reale” finish, giving that precious, time-graced weathered look.
